FOR
Biliousness,
Sick Headache,
Constipation,
Dyspepsia,

Now when the buds begin to show,
The time for young and old to know
That *feverish* and *ill*
The *ills* at *indigestion's* call,
With every trouble, ache or pain,
That follows in the *bilious* train,
Will scatter like the thieves of night,
Before a draught of **SELTZER** bright,
May 22.

Dr. Robinson.

PHYSICIAN, SURGEON AND OCUList.

FORMERLY OF VIRGINIA CITY, NEVADA.

OFFICE OVER CHEDIC'S DRUG

STORE

Residence at house formerly occupied by Marshall Robinson.

OFFICE HOURS:—9 to 11 A. M. to 3 P. M.

ALL SORTS.

—Spring lamb at Dies' today.
—Wizard Oil at Geo. Thaxter's.
—You must pay your dog tax before June 1st.
—W. D. C. Gibson was in the city yesterday.
—The river mills are running with a full head of water.
—Intelligence from Empire states that Wm. Farrell has mysteriously disappeared.
—Alf. Doten is still in the city superintending the report of the Pioneer banquet.
—Senator Jones and wife passed through the city yesterday, en route from Glenbrook to Gold Hill.
—FOR SALE.—A large roomy residence in the Western part of the city. Fine location. Apply at this office.
—Mr. Friend has just received a lot of rain gauges from Washington. These machines are warranted to produce rain in the driest weather.
—The pure and immaculate Sparks, U. S. Land Commissioner, has had some very loud smelling charges filed against him. Sparks was so awful good you know.
—It is agreed on all sides that Hong Di, the Chinese murderer, had to paddle his own canoe after he did the shooting. His own countrymen refused to harbor him.
—A. P. Church, at one time an employe on the Virginia Enterprise has just been convicted in a San Francisco Court of the murder of James Baxter in that city in May, 1878.
—Mail facilities in Eastern Nevada, at about White Pine, Eureka and Pioche, are represented to be in a somewhat demoralized condition. There are all manner of "suits," "transfers" and "assignments" among the contractors.
—Ex-Senator Haines, of Genoa, and his wife spent the day in Carson yesterday. Mr. Haines, some years ago took up 4,000 acres of redwood timber land near Eureka, Cal., and everybody said what a fool he was. He could sell it now for over half a million.
—Yesterday the dead body of a man was found lying on the steps of the V. & T. Depot. An investigation proved that it was the body of an inventor who had called on H. M. Yerington with the design of a car coupler. He was buried in the car coupler's cemetery in the rear of the foundry.
—A dispatch from San Francisco states that the Junction Mining Company, organized to work a mine on the Camas gold belt in Idaho, held a meeting on Thursday, at which A. J. Bryant resigned the office of President in favor of Senator William Stewart of Nevada, who was elected to fill the vacancy.
—Schubert, the man who originally captured Hong Die, the Chinaman, refuses to divide the reward with a man named Saunders, whom he called in to help him. He agreed to divide at the time, and acknowledges that he did, but now refuses to settle. All the glory he won making the capture will be lost by his mean evasion of his contract.
—The conflict between the owners of fishing traps and fisherman on the Columbia river is becoming more intensified in its bitterness. A man named Ross was killed at Ilwaco, W. T., last night. He had gone with two companions to protect some netting intended for traps. One of his companions named King was wounded. There is another rumor that another party, out with the intention of protecting the same kind of property, fired upon the Ross party, mistaking them for incendiary fishermen.

The District Fair.

It is now proposed to have the various District Fairs throughout the State come in regular order after the State Fair. The people of this vicinity are taking a lively interest in the District Fair, and propose to make an exhibit here which will be a credit to the county.
There is considerable blooded stock in this vicinity, and the farmers of Mason Valley will come to the front with some fine exhibits. The more people are educated up to fine stock the more they will get, and the more blooded stock they raise the more prosperous becomes the community. The Fair here is in good hands, and a healthy rivalry will be caused which will be productive of the very best results.

TWENTY-SEVEN QUARTS.

"Black Queen" Still Increasing Her Milk Record.

Yesterday the fact was published in the APPEAL that "Black Queen" the Holstein thoroughbred yielded 25 quarts of milk in one day. Several parties have intimated pretty strongly that a cow so young could not produce such a yield. Since that publication the cow increased her yield to 27 quarts per day. When the cow was brought to Carson three years ago it was nearly a heifer and taking the advice of experienced breeders of that stock the owner made no effort to "crowd" her into making a milk record. This year, her third milking season, she is being crowded for a milk record.
The writer introduced these animals into Ormsby County to afford dairymen an opportunity of ridding their corrals of unprofitable scrub stock. The same amount of feed that will keep scrub stock poor and yielding a small quantity of milk will keep a Holstein cow fat and making a big milk record all the year round. The aim of the dairyman is to get the biggest possible amount of milk out of a given number of cows and a given amount of feed.
Twenty seven quarts of milk a day is worth, at 10 cents a quart, \$2 70, in 30 days it is worth \$81 00. With such cows there is no necessity of adulterating milk with water, in order to make it pay. The Holstein cow can be milked right through the year, not falling off after three or four months. Such a cow will average 20 quarts a day for ten months in the year and this is a low estimate. 600 quarts a month, 6,000 quarts a year, at ten cents a quart, this is \$600. Say it costs \$100 to feed her for a year, there is a profit of \$500 left. Now this is a low estimate on an ordinary Holstein cow. 6,000 quarts of milk will weigh about 13,000 lb., yet the big Holstein records show 26, 600 lb a year, or more than double the estimate made here. A scrub cow is doing well that clears its owner \$100 a year, and many simply eat their heads off. A man with 20 scrub cows will make money selling them to the butcher and getting eight thoroughbreds in their places.
In spite of all assertions to the contrary the richness of the Holstein milk is beyond dispute: The cry that such a quantity of milk cannot be rich is met by the butter records of the Holstein all over the country.
"Mercedes" yielded 99lbs of butter in 30 days. A herd of 30 Holstein cows in New Jersey averaged 80lbs of butter a month apiece. Parties interested in knowing more of the milk and butter qualities of the breed are invited to call at the Holstein Ranch and put in a day thoroughly investigating the matter. Such callers will always be welcome and every opportunity given them to satisfy themselves regarding the yield of such cows and the quality of their milk.

Monday's Races.

There will probably be five horses in the races on Monday.

The horse lovers of Genoa are staking their favorite, "Lookout," who is considered in that section the likeliest piece of flying stock in the State.

The people of Dayton pin their faith on a very fast nag known as Sadie C, that has at divers times broken everybody in Mason Valley who has bet against her.

Washoe county will be there, and three awful fast horses have been sent up from the Riverside town to capture the stakes.

The grooms are attending to the horses at the track, and getting them in prime condition for the day's sport.

Mr. Sweeney is delighted with the prospects of a well contested field and the lively interest being taken in the matter.

A False Rumor.

The report that the stamps of the Santiago mill are hung up on account of a lack of water in the Carson River, is incorrect. There is a volume of water now flowing between the banks sufficient to drive four times the number of stamps in the Santiago. The mill has been shut down for repairs. It is too early in the season for the river to be effected by irrigating ditches to such an extent as to necessitate the closing down of the mills. This generally takes place in July or August, when the river is very low.

Memorial Day.

The following order of parade and exercises at the Cemetery is hereby announced:

The line will form on Carson street, right resting on Musser street at 9:30 o'clock A. M., and move promptly at 10 o'clock A. M. along Carson street direct to the cemetery, in the following order:

Marshal,

Band,

Company F, Carson Guard,
Custer Post, No. 5, G. A. R.,

Union Veterans,

Citizens on foot,

Mexican Veterans,

Carriages containing members of the W. R. C., Federal, State, County and Municipal

Officers, Chaplain,

Orator, Poet,

Choir and

Citizens.

At the Cemetery the ceremony there will consist of the special service of the G. A. R.

Returning, the column will pursue the same order of march, pass in review at the Postoffice building, and disband.

A cordial invitation is hereby extended to all Union Veterans, Federal, State, County and Municipal Officers, Civil Societies, Firemen, School Children and Citizens generally, to take part in the ceremonies of the day.

GEORGE HARK,
Marshal.

Fearful Fires.

NEW YORK, May 27.—Flames broke out at 1:30 A. M. in the South end Bell line stables on Tenth Avenue, between Fifty-third and Fifty-fourth Sts. The building was entirely destroyed together with 1,200 horses belonging to the Company. Loss about \$400,000. At the same time about 75 tenement houses were burned, making a total loss of about \$1,325,000. More than 100 families, mostly very poor people have been rendered homeless.

CINCINNATI, May 27.—At 1:40 city time, a general fire alarm called help to the burning street car stables. About 150 loose horses were running through the streets, indicating that many of the horses were saved. Loss between \$100,000 and \$200,000.

SAN FRANCISCO, May 27.—About 12:05 this morning a fire broke out in the furniture factory of Herman Granz, 617 Brannan street. The flames spread rapidly and communicated to the shed adjoining, occupied by J. & F. Keser's marble yard. Their stock of marble was irreparably injured by water and smoke. Total loss, \$20,000, with little insurance.

A Side Walk Obstruction.

For some years past there has been a little cigar store on the sidewalk at the North East corner of the Mint block. It is labeled the "Model Cigar Store" and is about big enough for one ordinary sized man to stay in, along with a small cigar box.

For years people who wanted to go down that street, have gone around the little Model cigar store and cursed as they went.

For some time the building has been unoccupied but is just as much in the way as ever. No one owns it and the city authorities could not do a better thing than move it. It is a sidewalk obstruction and if it can be maintained there the business men can extend their stores out on the sidewalk with impunity.

The Chronicle's Weather Statistics.

The San Francisco Chronicle has decided to organize a signal service station for the Coast, and give three reports per day to its subscribers, of all weather West of the Rocky Mountains. The paper publishes a map of its proposed stations, and makes Carson City the Nevada station. They doubtless selected Carson because Meteorological Observer Friend is located here, and can give them the best observations they can get anywhere. This will prove a great service to agriculture.

Attention Custer Post.

The members of Custer Post G. A. R. and all other veterans are requested to meet at the Post Hall on Sunday morning at 10 o'clock for the purpose of attending divine services. Uniform.

H. F. BARTINE P. C.

Piano Tuning.

Prof Zech is once more in the city on a piano tuning mission. Orders can be left at Friend's jewelry store. m5 if

Can it be Possible?

We Say Yes!

If You Don't Believe it, Come and Convince Yourself.

—WE HAVE—
450 SPRING AND SUMMER SUITS.

—250 DRESS SUITS.

—200 BOYS' SUITS.

1000 BOYS' AND MEN'S STRAW HATS,
And Other Goods, too Numerous to Mention.

We Must Dispose of them in 60 Days, so have Put Prices Down to Bed Rock.

Blumenthal & Cohn,
County Building.
